STREET DIRECTORY.

The streets named by the letters of the alphabet and numerals, respectively, are laid out at right angles, the former running east and west from North and South Capitol Streets, and the latter running north and south from East Capitol Street and the Mall, streets so named being not included in the following list. The avenues named for States of the Union run diagonally from different centers, the most prominent being the Capitol and the Executive Mansion. Many of the original blocks or squares were so large that new streets and alleys have been opened and named, the list of which shows a continued increase from year to year. The decimal system of numbering is used; it is on the principle of allowing one hundred numbers to each square, and greatly facilitates finding a particular number, and is advantageous in case of a fire or the tearing down of a block of buildings, the numbers that follow not being thereby disarranged. All addresses have the additional designation of northwest, southwest, northeast or southeast, according to their direction from the Capitol, upon the meridian of which Major L'Enfant constructed the plan of the city; the Capitol building is very nearly the exact center of the city.

CERES. CERES. CERES.

The Celebrated Minnesota Patent Process Flour

IT IS WITHOUT A DOUBT THE MOST BEAUTIFUL AND THE MOST
NUTRITIOUS FLOUR IN THE WORLD.

The millers have not only the most perfect mill, containing as it does all the most improved machinery invented up to the present time, but they produce a flour unsurpassed by any mill in the World. To prove that, we would simply state that a large quantity of this magnificent flour is shipped annually to Europe and eaten at the principal courts of the Old World. We guarantee that it is made from selected hard wheat grown in Minnesota and Dakota. It is an acknowledged fact that in this flour a perfect separation of the glutinous particles of the wheat berry and a thorough elimination of all the weak and starchy matter has at last been reached, and is consequently more nutritious, yielding more bread to the barrel than any other flour. The best trade admits that from its bread-making qualities it is the cheapest, as well as the best, for either family or baker's use and unsurpassed by any flour made. It makes more bread, lighter bread, whiter bread, sweeter bread, and better bread than any other flour. Ceres for sale by all live grocers. We only wholesale it. Every sack and every barrel is warranted to give entire satisfaction.

GENEVA MINERAL WATER.

To all sufferers from Kidney trouble, Incipient Bright's Disease, Constipation, Insomnia, and kindred affections, Geneva Water affords relief.

At our office, 820 F Street, the public will be cordially received and given an opportunity to test its efficacy and learn the road to health through "Nature's" agency.

Testimonials from our prominent physicians who are prescribing it each day in their practice are an undisputed attest to its health-giving qualities.

Geneva, beyond argument, is the strongest Lithia Water before the public, having 14.15 grains to the gallon. For all Uric Acid troubles Geneva meets the requirements, and we have never failed to cure a case of Rheumatism.

That dread disease Insomnia succumbs to the soothing effect Geneva has upon the Nervous System, and the shattered constitution once more becomes robust.

A word to the ladies: Geneva Water stands to-day without a peer for clearing the complexion.

CALL AND BE CONVINCED.
